

# Give the Gift of Life

**VINODKUMAR** (37) is a father of two, a dedicated family man and a loyal friend is suffering from “**MYELODYSPLASTIC SYNDROME**”. Doctors tried all possible treatments and now his chance of survival depends on finding a matching bone marrow to do BMT (Bone Marrow Transplantation). Unfortunately his brother’s bone marrow didn’t match. We are organizing this test drive to find a potential match. The test is absolutely **FREE!**

## Matching Bone Marrow

- You are likely to find it in people (as low as) one out of one hundred thousand.
